

Roseville

Environmental Policy Statement

Roseville (Projects) Ltd recognises that it has a duty to care to protect and safeguard the environment.

In order to meet this duty Roseville (Projects) Ltd will seek to:

- Reduce, where practicable, the environmental effect of our activities to minimise the potential for pollution, minimise waste production and ensure the efficient use of resources;
- Comply with all current environmental legislation and seek to meet future legislative provisions;
- Promote energy efficiency;
- Integrate environmental issues within normal operating procedures;
- Develop and implement emergency response procedures to minimise the environmental impact of incidents;
- Promote environmental awareness and responsibility among employees and others;
- Ensure continuous improvement in environmental performance;

It will be the responsibility of Roseville (Projects) Ltd to ensure that all business activities are undertaken in such a way to minimise the potential impact of those activities
